GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

ELIGIBILITY

- All breeds and mixes are eligible.
- Dogs must be between 10 months and 12 years old (dogs over 12 years old may compete with the WRITTEN approval of a vet).
- No pregnant, nursing, or bitches in season.
- Dogs must be free of disease and injury.
- Dogs cannot be on any performance enhancing drugs.

CLASSES OFFERED

Novice - Any dog 10 months older on the day of the event. Recommended for new teams.

Open - Any dog 1 year or older on the day of the event. Recommended for experienced teams.

Novice and Open Dogs will compete together, results will be reported separately.

WEIGH IN

All dogs must be weighed in by a judge in order to compete! A dog competing in all four events only needs to be weighed once. Dogs must be weighed in their natural form, wearing only a flat or martingale collar (up to 3in in width). Leashes can be attached.

Weigh In will be offered at the following times using a veterinary scale:

Saturday, October 26, 2024 - 8:00 am

Sunday, October 27, - 8:00 am

*Teams who are competing in the only afternoon pulls can weigh in 15 minutes prior to the afternoon handlers meeting.

HANDLER'S MEETING

All handlers must attend the Handler's Meeting prior to their dog competing. Handler's Meetings will start promptly 15 minutes before the scheduled start time of each competition. Handlers will be asked to sign in at each meeting.

Handler's Meetings will last approximately 15 minutes. There will be time for questions.

WEATHER

We will compete rain or shine at the Chief Judges discretion. Delays will be implemented as needed for storms or severe weather. We will not compete if temperatures in the chute exceed 90 degrees. Any updates will be communicated via the SCSD Facebook and W3PO Facebook groups.

GRIMM'S PULL OF HORROR'S (W3PO) - OCT 2024

ALL EXPERIENCE LEVELS WELCOME

Scruffy City Strong Dogs encourages all interested in learning about this awesome sport to come out and try it! We love our Novice Teams and want everyone to be successful.

WEIGHT PULL BASICS

- Simply put, in weight pull a dog must pull a cart 16 feet in under 60 seconds.
- Dogs must participate in a properly fitted weight pull harness. Judges may inspect harnesses at any time.
- Weight Pull competitions are structured in Rounds.
 - Rounds are defined by an increasing weight increment. The weight increment is called the "Drop".
 - Round 1 will be the empty cart.
- Each dog will have the opportunity to PULL or PASS in each round.
 - Dogs that successfully pull the entire distance in the allotted time will move on to the next round.
 - Handlers may PASS up to three rounds in a row after their dog has begun pulling. (Example: Dog completes Round 1 easily and quickly, handler may PASS Rounds 2, 3, & 4. Dog would pull again in Round 5.)
- Rounds continue until the handler chooses to withdraw their dog or the dog earns two fouls.
- Fouls are called by the Judge at the time they are observed. Only Judges can call a Foul. Fouls are assessed for:
 - Not pulling the cart the entire distance in allotted time.
 - Handler touching the dog OR equipment after the timer has started.
 - Dogs become tangled in equipment/harness in a way that interferes with the safety of the dog while pulling. (Judges will call this "Tangle").
 - Excessive foul language in the chute.
 - Dropping or pushing the dog.
 - A sling-shot or walking start.
 - Elimination by the dog in the chute.
 - Baiting (in any form).
 - Double handling.
 - Being in the "No Pull Zone" for more than three seconds. This area is between the front of the car and the base of the dog's tail.
- The following Fouls are grounds for Disqualification
 - Food on the handler in the chute.
 - Aggressive/harsh action directed to the dog. This includes physical corrections of all kinds.
 - If a handler is DQ'd for aggressive/harsh actions toward a dog, all of their dogs entered are DQ'd for the event and a report will be submitted to W3PO.
- The highest weight a dog pulls in the event is used to determine awards. Awards are awarded based on the highest weight OR the percentage weight (highest weight divided by body weight).

GRIMM'S PULL OF HORROR'S (W3PO) - OCT 2024

PROCEDURE

- Teams will be called into the chute by the Judge.
- The dog's harness will be hooked to the cart (by handler or cart help). Dogs must have four feet on the ground before they are hooked to the cart.
- While holding onto the dog, the handler will position the dog between the cart's wheels and walk the dog out to extend the Trace line. There can be no slack in the trace line before releasing the dog. THE JUDGE WILL TELL YOU WHEN YOU ARE GOOD!
- When ready, the handler will release the dog and encourage the dog to pull.
- Time begins when the handler gives the first cue (verbal or signal) or the dog initiates forward movement.
- When the cart is pulled past the finish line, the Judge will call "PULL" and state the dog's time. After the Judge calls "PULL" the handler can touch their dog.
- The dog will be unhooked from the cart and exit the chute. The dog will rest (preferably crated) while the rest of the round is completed.
- If the dog earns a foul, the handler can elect to reset immediately or proceed to the end of that round's run order.

ADDITIONAL NOTES

- W3PO does not allow dogs to pull if the temperature in the chute exceeded 90°F. Judges will be monitoring the temperature at all times.
- Judges may require a dog to take a 5 minute break AT ANY TIME if needed.
- Rewards can be given to dogs in between rounds at the crating area - NO REWARDS IN THE CHUTE or ON DECK AREAS.
- Electric collars are not allowed at any time. Non-electric training tools (prong collar, slip chain, head halter) may be used to assist in walking dogs from the crating area to the chute. Only flat collars and martingale collars are allowed while a dog is pulling. Excessive corrections are grounds for disqualification at the judges discretion.
- If a handler is reported for any abusive/harsh treatment, that handler and all of their dogs will be DQ'd from the event. SCSD will report any such issues to W3PO.

SCSD HOUSE RULES

- Handlers of dogs that eliminate on any equipment will be assessed a \$5 fee and expected to clean up after their dog.
- Judges, Volunteers, and Vendors who wish to compete with their dogs are encouraged to do so, and accommodations may be made as needed. When handling their dogs, they should be respected as a competitor and not disturbed until they are back in their judge/volunteer/vendor role.
- All competitors are expected to follow all W3PO, SCSD, and Venue rules. Depending on the situation, failure to follow the rules will result in a dismissal from the event.
- REACTIVE DOG POLICY:
 - SCSD strives to be accommodating to all teams who want to try this sport, which includes our ~spicy~ friends. If your dog is reactive, please discuss accommodations with the Chief Judge during weigh in.

GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

EQUIPMENT INFORMATION

- The Rails System is 40' x 4' and constructed of quarter inch steal.
 - The track is maintained level for competitions. At least two judges will confirm level prior to the beginning of a rails pull.
 - The cart weighs 325# empty. At this time, there is not a small rails cart.
 - Four 6 inch steel v-casters with closed ball bearings rated for 5,000 lbs are maintained for use.
 - The rails surface will be oiled and sanded (if needed) prior to each pull.
 - The rails system is rated for 10,500 lbs and shall not exceed this without Equipment Manager's approval
- The SCSD Wheels cart is constructed with quarter inch steel with a wood deck.
 - The competition wheels cart weighs 250# empty. A smaller wheels cart is available and weighs 100#.
 - The cart has pneumatic tires rated for an appropriate weight and will be maintained at the described tire pressure.
 - The cart is rated for 5,200 lbs and shall not exceed this without Equipment Manager's approval.
- Carpet used as an artificial surface is a woven berber.
- All cinder block used have an average weight of 25#. Six randomly selected block will be weighed and averaged to confirm before each pull.
- Traces and break lines will always be constructed of an approved material with a tensile strength exceeding 5,600 lbs. Identical spare traces will be available if needed. Traces will be of acceptable material according to organizational rules.
- All carabiners subject to high force will be rated for at least 5,600 lbs. Spares will be available as needed
- Fencing for the chute will be appropriate to the venue according to organizational rules.

SCSD HARNESSES

- SCSD has a variety of harnesses available to competitors to borrow. SCSD members can assist in fitting a dog for a harness.
- If an SCSD harness is damaged by a competitor during loan period, the competitor must pay for a replacement harness (\$100). This includes a dog chewing through a harness when not being properly supervised.
- SCSD harnesses are to be returned following each pull.
- Competitors may be assigned a harness buddy if multiple dogs need the same size harness.

GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

EQUIPMENT RULES

- SCSD strives to maintain competition equipment of the highest standard of safety and integrity. Equipment will be monitored by all SCSD judges and the SCSD Equipment Manager during use. Anyone with equipment concerns can bring them to the head judge at any time.
- All competition equipment will be inspected as according to the SOP prior and following to each competition.
- If, at any point in a competition, the integrity of the equipment comes into question, the following procedure will be followed:
 - The competition will halt while the equipment is investigated.
 - If the equipment is deemed unsafe and unfair to continue pulling, repairs will be made AT THAT TIME. Dogs that earned a foul on that drop will be allowed to re-pull after repairs. Dogs that pulled on that drop successfully will be allowed, but not required, to re-pull at the handler's discretion.
 - If the equipment is deemed safe and fair to continue pulling, the remaining dogs pulling in that round will pull prior to repairs being made.
 - If the equipment is not repairable, placements/MWP/MWPP will be awarded based on the last completed round with ties broken by time.
- Competitors are not to compromise the integrity of SCSD equipment at any time. Doing so will result in removal from the event and may result in a ban from future SCSD events.
- The SCSD Equipment Manager and/or Head Judge may set a maximum capacity on the equipment AT ANY TIME. An effort will be made to communicate this ahead of time. This is to PREVENT equipment malfunction and safety concerns.

SCSD EQUIPMENT MANAGER

- Reagan Hart (SCSD Secretary, W3PO Judge, IWPA Judge) is the acting equipment manager for all SCSD competition equipment. Reagan is the private owner of the SCSD Rails System and therefore has final say regarding use. SCSD outright owns the Wheels cart and Snow sled, and as such, the final say regarding use of this equipment will be decided by club officers.
- Reagan will name an acting Equipment Manager if she is absent from a competition.
 - **Allison Weaver will be acting Equipment Manager for this pull.**

GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

TITLES

To earn a title, a dog must earn THREE qualifying legs. One leg can be earned per competition at this event (two per day). A qualifying leg is determined by the final weight pulled by the dog and the dog's body weight. Titles do not have to be earned sequentially. Dogs entered in NOVICE can only earn the WPA title. Dogs in OPEN can earn any title.

Weight Pull Aptitude	Qualifying Leg	A 50lbs dog would need a qualifying pull of:
Wheels (Artificial)	5x body weight	250 lbs
Rails	7x body weight	350 lbs

Rails Titles (Abbrv.)	Qualifying Leg	A 50lbs dog would need a qualifying pull of:
Weight Pull Dog Rails (WPDR)	15x body weight	750 lbs
Weight Pull Dog Excellent Rails (WPDXR)	25x body weight	1250 lbs
Weight Pull Dog Superior Rails (WPDSR)	35x body weight	1750 lbs

Wheels (Artificial) Titles (Abbrv.)	Qualifying Leg	A 50lbs dog would need a qualifying pull of:
Weight Pull Dog Wheels (WPDW)	12x body weight	600 lbs
Weight Pull Dog Excellent Wheels (WPDXW)	18x body weight	900 lbs
Weight Pull Dog Superior Wheels (WPDSW)	23x body weight	1150 lbs

GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

AWARDS

Awards listed below will be award each day. All awards are while supplies last. In the event there are not enough awards, SCSD will make every effort to ship awards following the event in a timely manner (competitor pays shipping).

Most Weight Pulled (MWP)	Award to the dog that pulls the most weight at that event.	Event Specific Prize
Most Weight Pulled per Body Pound (MWPP)	Awarded to the dog that pulls the highest body pound percentage at that event.	Event Specific Prize
Class Placements First - Second - Third	Awarded to the top three highest pulling dogs in each weight class.	Event Specific Ticket
Qualifying Pull - Title Leg	Awarded to a dog that completes a qualifying title leg.	Event Specific Ticket
New Title	Awarded to a dog that completes a title.	Rosette

GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

VENUE INFORMATION

- We will be pulling at Ultimutt Knoxville.
- Our chutes will be set up in Ultimutt's pool fencing.
- Bathrooms are available inside the facility.
- Failure to respect the facility will result in excusal from the event.

EQUIPMENT SPONSOR

- Fully Loaded Canines has been a significant help in the creation, fabrication, and maintenance of the SCSD equipment. We are grateful for the Otterloop's continued support of our SCSD community!

EMERGENCY INFORMATION

Animal Emergency & Specialty Center

GRIMM'S PULL OF HORRORS (W3PO) - OCT 2024

FROM SCRUFFY CITY STRONG DOGS

We hope you will come try this awesome sport with us! Our members and officers will be there to support you and your dog throughout this event. What matters most to us is you and your dog having fun in a safe way.

Weight Pull is a low-impact sport. Weight Pull harnesses are designed to safely distribute the weight being pulled safely across the dog's body while avoiding pinching and pressure points. A proper weight pull harness is essential to safe pulling. SCSD has harnesses available for competitors to borrow and judges and/or members who will check to ensure a harness is properly fitted prior to a dog pulling.

SCSD does not condone forcing a dog down the chute that does not want to pull. Dogs cannot be dragged or bullied down the chute in any capacity at a competition (and SCSD does not permit it during training, either).

One of the reasons this sport is great for the handler-dog bond is because the human acts as a hype-man for their dogs. Handlers cannot touch or bait their dogs in competition, but they can cheer/call/encourage as much as they want! New dogs to the sport often think they can't pull much, but their human's job is to convince them they can! Dogs tend to make it abundantly clear when they are done pulling for the day. And because weight pull is a sport primarily focused on building confidence, it is common practice to always end on a 'successful' pull and praise - even if the dog is getting help by someone pushing the cart!
